ACADEMIC MAJOR PROJECT/THESIS

- **Medicine Reminder – 2019 (Android)**
Medicine Reminder is a simple medicine schedule management application that is designed to make medication easier to take and follow along to during our regular day.
- **Bangladesh Tourism Guideline System – 2018 (HTML, CSS, PHP, JavaScript, MySQL)**
After finishing the previous project in c language, we converted that system(Bangladesh Tourism Guideline System) in web programming. Here we added google map that tourist can easily find that tourist spot and hotel using Latitude and Longitude. We also add tourist spot's photo to attract people.
- **Bangladesh Tourism Guideline System – 2016 (C, Graphics)**
This system provides the district name and exact location of the historical places. Also provides the name of special food of any district. For tourist, this system provide hotel's address and contacts.
